

Sentara Pharmacy Multiple Locations, VA

www.gerflorusa.com

Project Description

Stantec Architects' Philadelphia office was charged with updating all Sentara Pharmacies across Virginia to meet industry protocols for safety, hygiene and cleanability. This involved renovations of existing and occupied facilities in the middle of the restrictions of the COVID-19 pandemic. SMP DecoClean Wall Panels were paired with Mipolam Biocontrol flooring and pre-formed corner systems for a seamless, heat-welded and sanitary installation from floor to ceiling.
